# LISTEN AND LEARN

We provide the next generation academic experience through Listen and Learn mobile application. It enhances the quality and effectiveness of education. Students can share academic notes explanation as audios. They can add full chapter wise explanation or single module wise explanations. All activities under this app are under control of a panel of teachers or a responsible authority. Teachers can share academic information through this app, like student placements, assignments, model questions etc.

## MODULES

1. Admin
2. Teacher
3. Student

### ADMIN

- Add the syllabus.
- Approve the voice notes.
